

1) Vision:

We created Singha's Gurukul to show Science and Mathematics is easy & fascinating for everyone if you were to really understand it and can be used in every dimension of profession you chose later on.

2) Mission:

Assist teachers in delivering the lectures by experimentally showing what the concepts they are teaching is about.

Help students visually watch and learn the chapter wise devised educational tools to boost their imagination, mathematical understanding, real life usage all the while making it fun to learn.

3) Partner Schools:

- Suryodaya English School (with some random logo as a pic)
- Siddhartha Higher Secondary School (With logo)
- Damak Multiple Campus

NOTE: If I click on each school, then a different portal will open describing the school and its testimonial for our product.

If I click on Partner Schools, it will open up a portal that will show list of all of the schools.

4) Supporting Partner:

- National Innovation Center
- Idea Studio

NOTE: No description required, just their name and logo.

5) Founder:

Saurav Singha Chaudhari:-

Saurav is the founder & CEO of Singha's Gurukul with a vision to help students realize the essence of education.
